

THE DIGITAL FORTUNE COOKIE

A Press2Play Fortune Teller · Sample Edition

An e-reader exclusive — only at Penny-Free Press

25 fortunes pouring through THE MIX · the full jar holds 150

ABOUT THIS SAMPLE

This sample pours 25 of the jar's 150 fortunes — five of every flavor — through THE MIX, the door that's open. The five flavor doors are greyed out: they pour only in the Full Edition. Tap one anyway — the cookie leaves a note there, and even the note redraws, because in this house the machinery always works.

Everything you can tap in here is the real machinery — the same bowls, shuffles and redraws as the Full Edition, in miniature. The Full Edition pours all 150 fortunes: 40 Wisdom, 30 Funny, 30 answers in Ask a Question, 25 Love & Romance, and 25 of The Cookie Has Concerns.

HOW IT WORKS →

How It Works

Tap THE MIX and a bowl of cookies appears. Tap the cookie you want, and it opens on your fortune. Every bowl is shuffled fair: inside it, every fortune hides the same number of times, so your finger does the choosing, not the book. And the jar keeps several bowls, dealt fresh each visit — no bowl can be memorized.

Some of the cookies in the Mix are answers in disguise — the Ask a Question batch. Think of your question first, say it in your head, then pick. The cookie answers — yes, no, or ask again later.

Finished? Tap the opened cookie to crack another in the same flavor — or change flavor from any fortune page.

WHAT IS PRESS2PLAY?

Press2Play is the hyperlink engine Penny-Free Press built for books like this. The full machinery of this sample — bowls, shuffles, and all — totals 124 pages and 14,827 hyperlinks, and it can exist on an e-reader like the Kindle Scribe (all generations), or any PDF reader that supports hyperlinks and doesn't reformat the page. This is NOT an app or a program. Just a simple (or not so simple) PDF, running on our Touch Entropy Matrix Engine. Not patented. Just exclusive.
